

Great News! HQ ARPC has transitioned to a new online retirement application for members awaiting pay at age 60 or their Reduced Retired Pay Age (RRPA) date. Members that fall into one of these two categories must apply using the vPC Dashboard through myPers - <https://mypers.af.mil>. Once logged in, the member then clicks on “Access the vPC Dashboard,” followed by a click on the “Action Requests” tab. Under Retirements (Overview) click on “Apply for Retirement (Reserve, AGR, Mandatory, Pay at Age 60).”

Members will then be directed to read and initial Retirement Knowledge which consists of seven (7) Sections before starting their application. Within the application, choose Retirement Type, then click on Submit. Members will receive one of four possible myPers questions after they choose the type of application (Age 60 or Reduced Retired Pay Age Date). Service members will be prompted to enter contact information and upload the required pay document (DD2656) and any additional documents if needed.

BONUS: When members submit via the online application they can check the status of their application without having to call the Total Force Service Center.
