GENERAL INFORMATION

Directions for preparing and maintaining an Emergency Medical Information Record.

1. Complete all applicable items on the Emergency Medical Information document, preparing an individual copy (file) for each member of the household.
2. Create a “water proof tube” made of 2” diameter x 11 ¾” length, Schedule #125 white PVC pipe with two (2) 2” flat PVC end caps (These materials can be secured from any irrigation or hardware supplier). Paint the two end caps RED and use a black marker to print (in large letters) EMERGENCY MEDICAL INFORMATION on the white surface of the PVC tube (label stock can also be used).
3. Place all documents pertaining to each individual of the household (with attachments) in an individual 8 ½” x 11” plastic sheet protector (Avery #PV119 or similar). Place the completed document in the “waterproof tube” for safety and store the tube in the kitchen refrigerator door storage area with the RED end caps installed. (It is possible that more than one (1) tube may be required, depending upon the family size.)
4. Instruct all family members, custodians, care givers, children or house sitters and any other assistance personnel who will be in the home, that an EMERGENCY MEDICAL INFORMATION (EMI) tube is stored in the kitchen refrigerator door storage area. In case of an emergency the EMI tube is to be made available to the Emergency Medical Service personnel -- fire, emergency aid -- when they arrive at the home. Notify the Emergency Medical Service personnel that EMERGENCY MEDICAL INFORMATION on the patient is located in the kitchen refrigerator door storage area.
5. Emergency Medical Service personnel will retrieve the appropriate file from the tube to assist in your medical care. They may take the individual file to the hospital to assist in the patient care.
6. When the patient leaves the hospital, arrange for pick-up of the individual EMI file. Return file to its storage location within the refrigerator storage area EMI tube.
7. Update your file on a regular basis to reflect current medical treatment, at least once a year, more often if necessary. It would also be advisable to maintain a copy in a safety deposit box or other safe place, in case the original was lost.
8. An information card should be prepared and attached to each vehicle registration, listing family members, address and telephone number (home and office). Also identify on the “card” that emergency medical information for each member of the family is maintained and retrievable from the EMI tube which is stored in the residence kitchen refrigerator.
