3. Review the job announcement carefully for all requirements.
4. Click 'Submit Application' and upload your combined PDF. ([Submit Application](#))
5. Verify your email is correct—this is how you will be contacted

SPECIALTY SUMMARY:

The Lead-MAJCOM for aircraft and mission set will determine the Multi-domain Operations Aviator (MOA) performance tasks as outlined in Master Training Tasks/Task Training Lists associated with Mission Design Series crew positions. Performs preflight and post-flight requirements of aircraft and aircraft systems. Performs duties as an aircrew member on manned aircraft or Remotely Piloted Aircraft (RPA). Integrates air, space, and cyber domains at the operational level to plan, coordinate, allocate, task, assess, and monitor mission systems to ensure lethal and non-lethal application of airpower. Performs surveillance, combat identification, weapons control, tactical data link management, communications, and airborne network management. Performs mission planning of aircraft and aircraft systems in accordance with aircraft technical orders, applicable Air Force Instructions (AFIs), and Unified Combatant Commands' theater Rules of Engagement (ROE). Detects, analyzes and discriminates between valid and invalid targets using radar systems, electro-optical, low light, infrared full motion video imagery, and other active or passive target acquisition and tracking systems. May be responsible for terminal guidance of precision guided munitions. Supervises and instructs personnel on the operation, maintenance, repair, and test procedures of airborne and ground based aircraft systems. Establishes, manages, and supervises aircrew training. Coordinates with maintenance, communication

technicians, and intelligence units to satisfy unit training requirements, including weapons and tactics programs. Evaluates aircrew academic, simulation, in-flight performances, and systems capabilities and recommends improvements. Related DoD Occupational Subgroup: 120100.

DUTIES AND RESPONSIBILITIES:

- Duties include operating, maintaining, repairing, and testing airborne and RPA systems to include communications, electro-optical sensors, radar, computers, navigation, electronic warfare (EW), tactical datalinks, electromagnetic spectrum operations (EMSO) and airborne network systems. Collects and interprets mission data, employs sensors to actively and/or passively acquire, track, and monitor airborne, maritime, and ground objects. Mission types may include air interdiction (AI), air operations in maritime surface warfare (AOMSW), close air support (CAS), personnel recovery (PR), and conducts intelligence, surveillance and reconnaissance (ISR).
- Supports air and ground-based operations to validate targets and threats using various sensors, systems, and munitions to conduct multiple mission sets. Monitors radio communications and analyzes intelligence data to direct aircraft position to assist in navigation and fire control planning. Interprets charts, imagery, and video data supporting relay of information to various agencies to provide real-time mission data, threat, and target updates. Coordinates with airborne, ground, and maritime agencies in relaying identification data of operational targets or threats.
- Plans and operates datalink operations for the area of responsibility to create a single integrated common operating picture. Performs surveillance, identification, tactical data link, and data management functions. Interprets radar data presentation to generate console displays. Compares and reports track positions based on flight data. Maintains logs, forms, and database files of aircraft and missions.
- Performs interior and exterior aircraft scanner duties. Performs and supervises operations and maintenance of airborne mission equipment. Establishes and maintains voice and data communications circuits and links. Manages systems including radio, audio distribution, switching, data, cryptologic, anti-jam, satellite communications, radar, identification friend or foe, recording and playback,

multiplex, intercept, analysis, recording, broadcasting, imaging, computer, and network equipment (including ancillary equipment). Monitors mission equipment status and troubleshoots malfunctions. Configures systems for mission control and monitors aircraft, ensuring adherence to procedural checklists and regulations. Responsible for crew and passenger safety. Reports aircraft status to the aircraft commander. May also complete required aircraft servicing in austere locations.

- Establishes and directs aircrew training. Supervises, instructs and evaluates aircrew members. Develops instruction for equipment operations, maintenance, and troubleshooting, ensuring standardized procedures. Identifies training needs, oversees training programs, validates instructional methods and arranges remedial and continuation training.

- Manages operational and maintenance functions. Maintains records, solves complex operational problems, and recommends maintenance and operational enhancements. Advises developers on system operations and maintenance to support acquisition, development, and updates of aircraft systems.

SPECIALTY QUALIFICATIONS:

Refer to DAFECD/DAFOCD for specialty qualifications, entry requirements, required training and further duties and responsibilities.

CONDITIONS OF EMPLOYMENT: The initial AGR tour is contingent upon selectee meeting all required standards to include fitness, medical review, security clearance, etc. AGR Members entering full time military duty must be medically qualified IAW DAFMAN 48-123 and the medical standards directory. Individuals must have current physical and dental examination within 12 months prior to entry date, HIV test within the last 6 months. AGR accessions are medically approved by the ND State Air Surgeon (SAS); those on WWD Waiver consideration must be approved by NGB/SGPA office.

Bonus/Incentive recipients: If you currently receive any type of incentive such as bonus, student loan repayment, or GI Bill Kicker, these incentives will stop effective on the first day of full time employment. To be accessed in the AGR program, an individual must not have been previously separated for cause from active duty or a previous Reserve Component AGR tour. This vacancy announcement will be for an initial active-duty tour of 6 years OR less. Subsequent tours will be six (6) years or less. Extensions beyond the
